

Keychain Factory

Commercial License Agreement

This Commercial Use License Agreement ("Agreement") is entered into between Picasso 3D ("Licensor") and the individual or entity that purchases this license ("Licensee"), effective as of the date of purchase.

1. Grant of License

Subject to the terms of this Agreement, Licensor grants Licensee a non-exclusive, non-transferable, revocable license to access and use the Keychain Factory web application (the "Software") to design and generate custom 3D-printable keychain files ("Output"), including for commercial purposes as described below.

2. Permitted Uses

Under this license, Licensee may:

- (a) Use the Software to design an unlimited number of custom keychains;
- (b) 3D print the Output for personal use or for sale;
- (c) Sell physical keychains 3D printed from the Output, in unlimited quantities, through any lawful sales channel, including but not limited to online marketplaces (e.g. Etsy, MakerWorld, Amazon), craft fairs, retail, or direct commission;
- (d) Use the Output in connection with a business, brand, or organization, including as promotional items or client deliverables.

3. Prohibited Uses

Licensee may not, under this license:

- (a) Resell, sublicense, share, or otherwise redistribute this license, this Agreement, or access to the Software itself;
- (b) Sell, distribute, or otherwise make available the Software itself (e.g. its source code, web application, or a copy/clone of it) as a standalone product or service;
- (c) Copy, modify, reverse-engineer, decompile, or create derivative works of the Software itself;
- (d) Claim authorship or ownership of the Software, or represent that Licensee created or owns the underlying generator/tool;
- (e) Remove or obscure any copyright, trademark, or attribution notices associated with the Software.

Note on Scope

For clarity: this license permits selling the physical printed keychains or reselling the raw design files as a digital product the Licensee creates using the Software. It does not grant any rights to the Software itself

4. Ownership

Licensor retains all right, title, and interest in and to the Software, including all associated source code, design, trademarks, and intellectual property. This Agreement does not transfer any ownership rights in the Software to Licensee. Licensee owns the specific Output files they personally generate and the physical items they create from them, subject to the restrictions in Section 3.

5. Term and Termination

This license is granted on a one-time-purchase, perpetual basis for commercial use, subject to Licensee's continued compliance with this Agreement. It applies to Licensee individually (or, if purchased by a

business, to that business entity) and is not transferable to other individuals or entities without Licensor's written consent. Licensor may terminate this license immediately, without refund, if Licensee breaches any term of this Agreement.

6. No Warranty

The Software and Output are provided "as is," without warranty of any kind, express or implied, including but not limited to warranties of merchantability, fitness for a particular purpose, or non-infringement.

Licensor does not guarantee that Output will be free of design errors or suitable for any particular 3D printer, material, or use, and makes no guarantee regarding the commercial success of any products Licensee creates or sells.

7. Limitation of Liability

To the maximum extent permitted by law, Licensor shall not be liable for any indirect, incidental, special, or consequential damages arising out of or relating to Licensee's use of the Software or Output, including lost profits, failed prints, material costs, printer damage, or third-party claims arising from products Licensee sells.

8. Indemnification

Licensee agrees to indemnify and hold Licensor harmless from any claims, damages, or expenses arising from Licensee's commercial use or sale of products created using the Software.

9. Governing Law

This Agreement shall be governed by the laws of Canada, without regard to its conflict of law principles.

10. Entire Agreement

This Agreement constitutes the entire agreement between the parties regarding the subject matter herein and supersedes any prior agreements or understandings, written or oral.
